

Your Partner for Comprehensive
Inverter Repair and IoT-Based Monitoring Solutions

IMAGINATION – INNOVATION – INTEGRATION – IMPLEMENTATION

ABOUT US

Put About Us: At Solar Service - Renewables, our management team collectively boasts over 1GW of experience. We have a profound background in electronics manufacturing, service, automation, as well as the solar and IoT industries. This blend of extensive experience and deep knowledge enables us to develop cutting-edge solutions for a range of industries. Sunce Renewables is your ultimate destination for all your Inverter Repair Service and IoT-Based monitoring control needs, not only in the solar industry but also beyond.

Sunce Expertise - Renewables

Your Partner for Comprehensive Inverter Repair and IoT-Based Monitoring Solutions Inverter Service:

- **Repair and AMC:** We offer comprehensive repair and annual maintenance contract services for inverters of all makes and sizes, including both string and central inverters.
- **In-House Expertise:** Our in-house capabilities allow us to address hardware and software issues with precision.
- **Rate Contracts:** For users with multiple locations and a variety of inverters, we provide rate contracts to simplify your management.
- **Onsite Repair Facility:** Our onsite repair facility ensures swift repairs, reducing generation losses.
- **24/7 Service Support:** You can count on us for round-the-clock service support with just a phone call away.

SCADA Service:

- **Repair and AMC:** Our expertise extends to the repair and annual maintenance contract services for SCADA systems from all manufacturers.
- **On-Site Service Support:** Our expert technicians are available on-site, ensuring the seamless operation of your systems.
- **24/7 Service Support:** We are committed to providing 24/7 service support whenever you need it.

Communication Solutions:

- **Custom Communication Products:** Discover our range of communication solutions tailored to meet the specific needs of solar plants.
- **LoRa Technology:** Our wireless devices are built using advanced LoRa technology, guaranteeing reliable and efficient communication.

Repair Workflow:

1. **Pick-Up/Drop Logistics Management:** Efficient logistics management for string inverters from locations across PAN India.
2. **Fault Analysis:** In-depth fault analysis is conducted to accurately identify issues.
3. **Root Cause Analysis:** Our experts identify underlying causes to prevent recurrence.
4. **Repair Work:** Expert technicians carry out the necessary repairs.
5. **Safety and Part Testing:** Rigorous safety and part testing procedures are employed to ensure quality.
6. **Load Testing:** We ensure that repaired inverters meet performance standards.
7. **Warranty Certificate:** We provide a warranty certificate for added peace of mind.
8. **Installation Checklist:** Ensuring that installations meet all necessary requirements.
9. **Packaging and Dispatch:** Secure packaging and timely dispatch of repaired equipment.

At Solar Service - Renewables, our unwavering commitment is to deliver top-notch services and products, guaranteeing the reliability and efficiency of your solar and industrial systems.

Experience Excellence in Solar Service and IoT Solutions with Solar Service - Renewables.
